Closing Ceremony	16.55-17.00

**The Natural Theatre Company will
be performing throughout the day!**

Treemendous

The loveable lumbering Treemendous Treants will be here to bring a touch of magic to the day. Armed with an arsenal of tree-mendous tree related humour the Treants are looking forward to having fun with everyone they meet.

Mr. & Mr. Burn

An explosive, chaotic, offbeat Vegas double act with a touch of disaster about them. Listen as they fill the air with some sweet swinging, brass heavy music, but will they get through their gig without setting their whole world on fire?

The Iguanodon Restaurant

This theatre performance, set in a life-size Victorian iguanodon, tells the story of the birth of geology in a fast and furious romp through 60 years of scientific discovery. As the story unfolds eccentric characters emerge from history. They compete for fame, claiming the biggest, best fossils for themselves! And they grapple with questions that shook society: How come these creatures no longer exist? What does this tell us about our world? Where's my hat?
